Appendix 2: Group System

3 Different-Types of Group System for Discussion

Participants will be assigned in 10 different groups (Five topics) according to their preference selection on sub-topics in the application.

Participants will participate in a total of 8 discussion sessions (including 4 pre-discussions) and 2 summits (Presentation and Recommendation Adoption).

Facilitators will participate in the discussion sessions (Pre-discussions, Discussion by Each group and Discussion by Each Topic) to help participants not lose direction of discussion and develop a recommendation.

Pre-Discussion (4 times in July)

The 4 times of pre-discussion will be introduced by group determined by participants' preference selection in the application, and each group will consist of 10 participants (1 participant of 1 country per group).

During this time, participants will break the ice, allocate their roles and discuss their group's sub-topics.

DAY 1 Discussion by Each Nation I (16:00 ~ 18:00)

This is a time when participants from the same country gather and have a discussion after 4 times of pre-discussion. Participants will share the results of each group's pre-discussion, listen to the opinions of other participants (same country from different groups), and prepare for the next group discussion.

DAY 2 Discussion by Each Group (11:00 ~ 13:00)

This is a time when participants go back to their groups and share opinions from different countries (Based on Discussion by Each Nation I).

Participants will start to draw a conclusion and based on this, they will write a recommendation and create brochures.

DAY 2 Discussion by Each Topic (14:00 ~ 16:00)

2 team leaders and 2 secretaries (2 groups with same topic) will gather and elaborate their recommendations.

Then the recommendation will be written according to the form given by the administrator. And the administrator collects recommendations of all topics, formats them, and distributes a finished recommendation to the leaders of each country.

This recommendation will be used for Discussion by Nation II.

Other team members who are not a team leader or secretary will create a brochure on results of discussion for Each Group

DAY 2 Discussion by Each Nation II (16:00 ~ 18:00)

At this session, participants from the same country discuss adaptability and applicability of the finished recommendation.

DAY 3 Summit I (11:00 ~ 13:00)

The representative of each nation will present their opinions on the finished recommendation based on the previous discussion.

Each topic's leaders (2 group leaders and 2 secretaries) will determine whether to revise the recommendation.

DAY 3 Summit II (15:00 ~ 16:00)

One representative for each topic will present a final recommendation, and all participants unanimously will agree to the recommendation.
